User stories:

1. A user that has no experience ordering food on an app can navigate their way to a complete order by simply clicking the order now button on the front page.
2. A user who is interested in seeing past orders to track how much they have been ordering will be able to with the order history button located at the bottom bar.
3. A user who doesn't know what to order on Fastpass can see a selection of the most popular takeout restaurants when clicking the view button.
4. Restaurant owner Micheal has trouble sending his workers to deliver goods to customers and can sign up his restaurant on the app Fastpass.
5. Micheal the restaurant owner wonders how fast will his food reach his customers. He doesn't want customers to leave bad reviews on his restaurant because of FastPass.
